# SECUNORM PROFI25

## NO. 120001

Original size

### Robust handle

The plastic insert of the SECUNORM PROFI25 slots into a fully aluminium body. With its robust design, this cutter can cope with high cutting frequencies over an extended period of time.

### Double-sided blade

Before you need to change the quality blade, you have the chance to turn it over once. Usage time of the blade is doubled and fatigue is held at bay: with a simple flip of the blade, your SECUNORM PROFI25 will cut like new again.

### Tool-less blade change

Blade change is easy to understand. Easier still to perform. Simply push the plastic insert out of the handle and with care, either rotate or replace the blade.

### For right and left handers

The SECUNORM PROFI25 is the right size for every hand. Yours too. If you are a left hander, simply turn the blade 180° and your cutting tool is ready to use.

## Professional in every respect.

Our SECUNORM PROFi25 is aptly named. „PROFI“ because this cutter really does behave professionally. Whatever the situation, whatever the cutting material. And the „25“ is in reference to its impressive blade extension of 25 mm, with which even 3-ply cardboard can be conquered. And just like all other members of the PROFi family, SECUNORM PROFi25 features automatic blade retraction.

## PRODUCT FEATURES

### Technical features

	High safety		Tool-less blade change
	Very abrasion resistant		Ergonomic

	<b>NO. 60099</b>	0.63 mm, rounded blade tips, deep-edged
	<b>NO. 98</b>	0.63 mm

### Certificates and awards

### Application

### Safety technology

#### Automatic blade retraction – a high degree of safety

The automatic blade retraction of the SECUNORM PROFi25 guarantees a high degree of safety from cut injuries. As soon as you have started to cut, take your thumb off the slider. The blade can thus withdraw back into the handle immediately after leaving the material being cut.

# THE PERFECT FIT FOR ALL. DOES THE PERFECT JOB.
