This shoe meets the standard ESD (Electro Static Discharge) for the protection of persons against electrostatic discharges under 35 Mega OHM

- **2,0-2,2 mm thickness leather** for better resistance (to abrasion and tearing) and longer durability.
- **Tridimensionnal textile lining**, soft and breathable, offers greater comfort and hygiene. Thanks to its honeycomb structure it allows better breathability for increased comfort. It is also highly resistant to abrasion.
- **Stainless toecap with special design:**
 - ✓ **Exclusive LEMAITRE toecap** : asymmetric (follows the shape of the foot for a elegant design) and dissymmetrical (toecap is shorter on top for added comfort)
 - ✓ **Treated with Epoxy** to avoid oxidation
 - ✓ **Offset of sizes on SPORTY range for a** for a greater inner volume and therefore a better comfort
- **Sporty sole :**
 - ✓ **Attack heel**, for a natural unfolding of the foot during walking and comfort while driving vehicle
 - ✓ **Comfort sole** : very thick sole at the heel
 - ✓ **Dual density polyurethane (PU2D)** injected
 - ✓ **Sportive design**
 - ✓ **Reinforcements of the PU sole** at the front and the back of the shoe for a better protection of the leather and the shoe
 - ✓ **Cold insulation**
 - ✓ **Heel shock absorber**
 - ✓ **Non-slip structure** with a studded open for better drainage of fluids
- **Parabolic profile**
 - ✓ **Exceptional slip resistance** : footprint adapts itself to the nature of the ground due to the profile of the sole
 - ✓ **Spring effect** : gives a more dynamic walk
 - ✓ **Walking assistance** : the concave structure of allows a progressive deformation of the sole in order to optimize grip and facilitate walking
- **Sporty shape : injection of the PU sole under the foot, enables :**
 - ✓ Higher breathability of the foot
 - ✓ Adaptation of the leather to the shape of the foot
 - ✓ Flexibility of the sole
